PROFESSIONAL OVERVIEW

Computer Science student with experience in IT Infrastructure and data-driven systems through an internship at EirGrid. Strong background in networking, systems, and software development, with exposure to real-world operational environments and large-scale datasets. Interested in solving practical engineering problems using data and technology. Aiming to apply technical skills in roles that combine software, systems, and real-world impact.

WORK EXPERIENCE

IT Infrastructure Intern

EirGrid, Dublin | Jan 2026 – Sep 2026

- Worked within a safety-critical national infrastructure environment, supporting data centre and hosting operations.
- Gained exposure to servers, virtualisation, networking, monitoring, and enterprise systems.
- Developed understanding of system reliability, change management, and operational risk in production environments.
- Collaborated with engineers across infrastructure and operations teams.

Supervisor (Promoted from Sales Assistant)

Petstop Carrickmines, Dublin | 2023 - 2026

- Managed daily operations, trained staff, and handled high-pressure decision-making in one of Ireland's busiest retail stores.
- Developed strong communication and leadership skills transferable to technical team environments.

TECHNICAL PROJECTS

Final Year Project Thesis (Industry Collaboration – EirGrid, In Progress)

University of Galway & EirGrid | Sep 2026 – May 2027

- Analysing large-scale marine survey data to assess offshore suitability for turbine and cable placement.
- Working with bathymetric, geophysical, and topographic datasets representing seabed conditions.
- Applying data analysis and machine learning techniques to identify patterns and model seabed changes over time.
- Investigating reliability and uncertainty in model outputs for real-world decision making.

Winterbourne Consulting Website (Deployed Project)

www.winterbourneconsulting.com | June 2026

- Designed and developed a responsive website from scratch.
- Implemented front-end functionality and layout using Bootstrap.
- Deployed and hosted the site, ensuring accessibility and performance.

EDUCATION

B. Sc in Computer Science & Information Technology (In Progress)
University of Galway | 2023 - 2027

Leaving Certificate

Gaelcholáiste an Phiarsaigh | 2017 - 2023

SKILLS

- Java
- Python
- JavaScript
- C
- C#
- SQL
- Linux
- Networking
- Git
- Machine Learning
- Cloud (Azure / Google Cloud)

ACHIEVEMENTS

7th Place (of 400+), ZeroDays CTF
ZeroDays CTF, Croke Park | 2025

Selected for EirGrid Industry Collaboration Project
EirGrid | 2026

PROFESSIONAL DEVELOPMENT

Cisco CCNA (In Progress)
Cisco Networking Academy | 2026

Microsoft Azure AZ-900 (In Progress)
Microsoft Azure | 2026

Cisco Introduction to Cybersecurity
Cisco | 2026
